## FORA

### BLOOD GLUCOSE MONITORING SYSTEM FORA G20

- No code
- Strip Ejection
- Function
- **Measurement Range:** 20 ~ 600 mg/dL (1.1~33.3mmol/L)
- **Daily alarm :** 4
- **Test Strip:** FORA G20 test strips
- **Sample Volume:** 0.7 µL
- **Reaction Time:** 7 seconds
- **Coefficient of Variation:** Less than 5%
- **Memory Capacity:** 450 results with date & time
- **Dimensions:** 87 x 51 x 14 mm
- **Weight:** 49 g (batteries excluded)
- **Power Source:** One CR2032 Battery

## FORA

### BLOOD GLUCOSE STRIP - FORA G20

- No coding
- **Blood test volume (µL):** 0.7
- **Reaction time (seconds):** 7
- **Measurement range:** 20 ~ 600 mg/dL (1.1~33.3mmol/L)
- **Enzyme type:** god
- **Hematocrit range:** 20 to 60 %
- **Memory set:** 450
- **Strip ejection:** Yes
- **Daily alarm:** 4
- **Alternative site testing:** Yes
- **Ketone warning:**
- **Day average:** 7/14/21/28/60/90 days
- **Data output:** RS -232
- **Power saving (seconds):** 180
- **Power source:** 1 x CR 2032
- **Dimension (Inch):** 3.42" x 2.00" x 0.55"
- **Weight (lb) without batteries:** 0.11
- **Unit per box:** 50 strips

## eBsensor

### BLOOD GLUCOSE MONITORING SYSTEM eBsensor

- **Measuring Unit:** mg/dL or mmol/L
- **Size:** 87 x 60 x 21 mm
- **Memory Capacity:** 180 blood glucose results
- **System Operating Temperature:** 10 ~ 40 °C
- **System Operating Humidity:** < 85%
- **Meter Storage Temperature:** 0 ~ 50 °C
- **Meter Storage Humidity:** < 95%
- **Power Supply:** Two 1.5-Volt (AAA) batteries
- **Weight:** 75g

## eBsensor

### BLOOD GLUCOSE STRIP - eBsensor

- **Blood Sample:** Capillary Whole Blood
- **Blood Volume:** 2.5 µl
- **Hct Range:** 20 % ~ 60 %
- **Measuring Range:** 20 ~ 600mg/dL (1.1 ~ 33.3mmol/L)
- **Measuring Time:** 10 secs
- **Unit per box:** 50 strips

## eBfine

### INSULIN PEN NEEDLES – eBfine

- Triple facet bevel needle for a gentle and Min. puncture for Max. injection comfort
- Silicone lubricant coating on insulin pen for smooth injection
- Non-Toxic, non-Pyrogenic needle for guaranteed safety
- Optional size and fit major brands injection pens
- **Unit per box:** 100 unit

## FORAFINE

### INSULINE PEN NEEDLES – FORAFINE

- Fits all major brands of injection pens
- Triple sharpened needles for easier penetration
- Silicone coated needle tips and thin wall technology for maximum injection comfort and safety
- Easier and quicker insuline flow
- **Unit per box:** 100 unit

## eBsensor

### LANCET (100 pcs)

- **Safe:** Sterilized by gamma irradiation
- Tri-level ground cannula keeps good blood flow
- **Universal:** Optional size and fit for almost all lancet devices
- Single use only

## PROTECTIVE BED SHEET

- Wicromed protective undersheet of 60 x 90 cm , rapidly absorbs wetness and transfers the same to lawyer ,hence ; avoids bed to become wet and contaminated
- Whereas wicromed protective undersheet of 90 x 180 cm is designed to avoid sleep of protective undersheet during movement of the patient , and to further protect to bed
- Liquid – proof PE film is pushed into edges of the bed and avoid slippage

### 10'

- **Unit per box:** 10 unit
- **Box per package:** 10 boxes
- **Product dimension:** 60x90 cm. or 90x180 cm

### 30'

- **Unit per box:** 30 units
- **Box per package:** 6 boxes
- **Product dimension:** 60x90 cm. or 90x180cm

CE ISO 13485 | ISO 9001

Wicromed

### CLEANSING SPONGE

- Cleansing sponge cleanses body by being bubbled by only a half glass of water
- Non allergenic
- PH value in compliance with skin (5.5 - 6.5)
- Coconut oil content assists regeneration of cells and removes dead cells
- Enhanced vitamins optimize skin-moisture balance
- Avoids bacteria- and fungus formation
- No rinsing is necessary
- Ideal for situations where taking a bath is difficult
- **Unit per box:** 20 units

CE ISO 13485 | ISO 9001

Rina

### AIR MATTRESS ANTI DECUBITUS SYSTEM

#### Pump features

- **Power supply:** 220V.-240V., 50/60 H.
- **Air output:** 3-10 L.(20 -140 mmHg)
- **Cycle time:** 5 min
- **Power consumption:** 7W

#### Mattress Features

- **Size:** 186x90 cm
- 130 bubble cells
- Vents and end flaps available
- **PVC thickness:** 0.30 mm
- Repair kit and hose included
- **Weight Capacity:** 130kg
- **Product weight:** 1,5 kg

CE ISO 13485 | ISO 9001

# BLOOD PRESSURE MONITORING SYSTEM

**BLOOD PRESSURE  
MONITORING SYSTEM**

# BLOOD PRESSURE MONITORING SYSTEM

## BLOOD PRESSURE MONITOR – WRIST TYPE

- **Measurement method:** Oscillometric method, automatic inflation and measurement
- Blood pressure class identification
- **Display:** 40 x 42 mm LCD
- Date & Time display
- **Measurement range Pressure:** 0 - 300 mmHg
- Irregular cardiac rhythm display (if any)
- Erroneous measurements and low battery signal
- **Cuff Sizes:** 300mm x 70 mm
- **Pulse:** 40 - 199 beats/min
- Accuracy Pressure: within 3 mmHg
- **Pulse:** within 5%
- **Memories:** 60 measurements memories
- **Dimensions:** 87 x 70 x 29 mm
- **Weight:** 133 g
- **Power supply:** 2 x AAA alkaline batteries
- Excludes storage case
- Operating temperature +10 to +40°C, 85% R.H.
- Storage temperature -20 to +50°C, 85% R.H.

## BLOOD PRESSURE MONITOR – WRIST TYPE

- **Measurement method:** Oscillometric method, automatic inflation and measurement
- Blood pressure class identification
- Guiding Human voice, 3 language options
- **Display:** 40 x 42 mm LCD
- Date & Time display
- **Measurement range Pressure:** 0 - 300 mmHg
- Irregular cardiac rhythm display (if any)
- Erroneous measurements and low battery signal
- **Cuff Sizes:** 300mm x 70 mm
- **Pulse:** 40 - 199 beats/min
- Accuracy Pressure: within 3 mmHg
- **Pulse:** within 5%
- **Memories:** 60 measurements memories
- **Dimensions:** 87 x 70 x 29 mm
- **Weight:** 133 g
- **Power supply:** 2 x AAA alkaline batteries
- Excludes storage case
- Operating temperature +10 to +40°C, 85% R.H.
- Storage temperature -20 to +50°C, 85% R.H.
- Talking feature( Arabic – Kurdish – Russian )

## BLOOD PRESSURE MONITOR – ARM TYPE

- **Measurement method:** Oscillometric method, automatic inflation and measurement
- Blood pressure class identification
- Guiding Human voice, 3 language options
- **Display:** 70 x 75 mm LCD
- Date & Time display
- **Measurement range Pressure:** 0 - 295 mmHg
- **Pulse:** 40 - 199 beats/min
- Irregular cardiac rhythm display (if any)
- **Cuff circumference:**
  - 22cm-30cm(8 21/32" -11 13/16")
  - 30cm-42cm(11 13/16" -16 17/32") (Optional)
  - 42cm-48cm(16 17/32" -18 29/32") (Optional)
- Erroneous measurements and low battery signal
- **Cuff Sizes:** 300mm x 70 mm
- **Accuracy Pressure:** within 3 mmHg
- **Pulse:** within ± 5%
- **Memories:** 60 measurements memories
- **Dimensions:** 125 x 130 x 61 mm
- **Weight:** 330 gr
- **Power supply:** 4 x AA alkaline batteries
- Excludes storage case
- Operating temperature +10 to +40°C, 85% R.H.
- Storage temperature -20 to +50°C, 85% R.H.

**BLOOD PRESSURE MONITOR – ARM TYPE**

- 48 mm. scale
- 0-300 mm. /Hg. dial
- Membrane protected single hose output
- 3 mm. /Hg. accuracy
- Stethoscope
- Adhesive or hook cuff option
- Leather storage bag
- 2 year warranty

**BLOOD PRESSURE MONITOR FULLY AUTOMATIC – ARM TYPE**

- Measurement method : Oscillometric method, automatic inflation and measurement
- Blood pressure class identification
- Display 70 x 75 mm LCD
- Date & Time display
- Measurement range Pressure: 0 - 295 mmHg  
Pulse: 40 - 199 beats/min
- Irregular cardiac rhythm display (if any)
- Cuff circumference:
  - 22cm-30cm(8 21/32" -11 13/16")
  - 30cm-42cm(11 13/16" -16 17/32") (Optional)
  - 42cm-48cm(16 17/32" -18 29/32") (Optional)
- Erroneous measurements and low battery signal
- Cuff Sizes : 300mm x 70 mm
- Accuracy Pressure: within 3 mmHg  
Pulse: within  $\pm 5\%$
- Memories : 60 measurements memories
- Dimensions 125 x 130 x 61 mm
- Weight :330 gr
- Power supply : 4 x AA alkaline batteries
- Exclusive storage case
- Operating temperature +10 to +40°C, 85% R.H.
- Storage temperature -20 to +50°C, 85% R.H.

**MANUAL BLOOD PRESSURE MONITOR WITH CUFF - NURSE TYPE**

- Gear-free trigger aneroid
- Certified accuracy to  $\pm 3$  mmHg
- Durable: withstands a 30" drop
- Laser-engraved dial face for accuracy
- Measurement range : 0 – 300 mmHg
- Black PVC hose
- Soft comfort grip
- Trigger deflation valve for smooth, one-finger operation
- Cuff tested to withstand demanding clinical environments
- Rotatable port, improves patient comfort and cuff durability
- Folded cuff edge reduces risk of cuts and scrapes
- Cuff meets all clinical guidelines for proper fit from AAMI and AHA
- Dimension: 73mm x 71 mm x 84 mm
- Weight : 272 gr
- Exclusive case (Black)

**FABRIC ORTHOPEDICS**

# FABRIC ORTHOPEDICS

Wicromed

## CERVICAL COLLAR - FOAM

### Indications

- Acute neck pain
- Cervical disc hernia
- Minor muscle spasm associated with spondylosis
- Protection during halo application

### Functions

- Kinesthetic reminder to limit neck movement
- Limitation of movement

### Features

- Made of foam with a stockinette cover
- High density foam is available

CE ISO 13485 | ISO 9001

Wicromed

## CERVICAL COLLAR – NELSON

### Indications

- Cervical disc hernia
- Post-traumatic protective purpose and patient transfer
- Cervical strain
- Postural stiffness

### Functions

- Vents which ensure air circulation
- Kinesthetic reminder to limit neck movement

### Features

- Made of antiallergenic 12 mm. Plastoze material

CE ISO 13485 | ISO 9001

Wicromed

## CERVICAL COLLAR - PHILADELPHIA

### Indications

- Post-operative cervical fractures
- Halo removal
- Anterior cervical fusion
- Dens type I cervical fracture of C2
- Anterior discectomy
- Suspected cervical trauma in unconscious patients
- Tear-drop fracture of the vertebral body (Note: Some tear-drop fractures require anterior decompression and fusion.)
- Cervical strain

### Functions

- Kinesthetic reminder to limit neck movement
- Plastic struts restrict neck flexion, extension, lateral bending and rotation

### Features

- Made of antiallergenic 12 mm. Plastoze material
- An anterior hole for a tracheostomy is available

CE ISO 13485 | ISO 9001

**CLAVICULA BANDAGE**

**Indications**

- Poor posture
- Clavicola fracture
- Clavicola dislocation
- Sterno-clavicular dislocations
- Weak scapula muscles

**Functions**

- Excellent aid in correcting poor posture and shoulder slump
- Help to correct and remind poor shoulder posture
- Immobilize fractured clavicle

**Features**

- Made of antiallergenic sponge coated by cotton fabrics
- Standard

**SHOULDER SUPPORT (NEOPREN)**

**Indications**

- Shoulder pain
- Bursitis
- Tendinitis
- Shoulder articulation semi – dislocation

**VELPEAU SHOULDER SUPPORT**

**Indications**

- S/P glenohumeral acromioplasty
- Surgical repair of the rotator cuff
- Anterior glenohumeral capsular reconstruction
- Anterior dislocation of the G-H joint
- Swelling and inflammation
- Torn muscles or ligaments
- Impingement syndrome
- Tendonitis
- Myositis

**Functions**

- Protects your arm from rotating
- Restricts mobility of the shoulder and upper arm for separations, dislocations, strains and other injuries

**Features**

- Breathable cotton material
- Adjustable hook and loop closures allow swathe to be positioned in desired location
- Universal design fits left and right arm

**ARM SLING (30 DEGREE)**

**Indications**

- The impingement syndrome of post-op
- Rotator cuff tear after repair,
- Frozen shoulder under anesthesia after manipulation.
- Subacromial bursitis and subkorakoid.
- Used after shoulder endoprosthesis.
- Bursitis

**Functions**

- Abduction of shoulder articulation at 30 degrees

**Features**

- Inner surface cotton towel, outer surface Velcro; made of sponge laminated by maintaining fabrics
- Adjustable tab

# FABRIC ORTHOPEDICS

Wicromed.

**ARM SLING - GABARDINE**

**Indications**

- Brachial nerve injury
- Upper arm fracture
- Shoulder subluxation/ dislocation
- Post surgical protection

**Features**

- Made of cotton fabrics Supports the arm and carries the weight across the back and shoulder
- Comfortable lightweight material
- Immobilization of shoulder

CE ISO 13485 | ISO 9001

Wicromed.

**ARM SLING –WITH NET**

**Indications**

- Dislocations in shoulder and half of the sholder dislocations, In cases of postoperative resting, Fractures of the distal edema formation is used to prevent.

**Features**

- The inner surface of the towel, the exterior is made of air-tex cloth. The waist belt provides extra protection supportes.
- Black

CE ISO 13485 | ISO 9001

Wicromed.

**ARM SLING –SPONGE**

**Indications**

- Brachial nerve injury
- Upper arm fracture
- Shoulder subluxation/ dislocation
- Post surgical protection

**Features**

- Inner surface cotton towel, outer surface Velcro; made of sponge laminated by maintaining fabrics
- Supports the arm and carries the weight across the back and shoulder
- Universal design fits right or left arm.
- Adjustable slide buckle for proper height adjustment
- Comfortable lightweight material

CE ISO 13485 | ISO 9001

Wicromed.

**ELBOW BRACE – EPICONDYLITIS SUPPORTED**

**Features**

- Circular pad for extra pressure on the muscle in the arm or wrist

**Indications**

- Tennis elbow
- Golfer's elbow
- Weak elbow
- Articular effusion & swelling
- Chronic inflammation after operation or trauma
- Collateral ligament injury

**Functions**

- Closed cell neoprene with compressive and proprioceptive effect
- Increase blood circulation through warm effect

CE ISO 13485 | ISO 9001

**EPICONDYLITIS BANDAGE**

**Features and Functions**

- Silicone pad provides compression to help relieve tennis elbow pain and discomfort
- Helps the body quickly reabsorb edema and hematoma
- Relieves strain on the periarticular tissues and compresses the soft tissue

**Indications**

- Tennis elbow
- Golfer's elbow
- Elbow traumas
- Ligament injuries, post-operation during healing, Sport activities.

**EPICONDYLITIS BANDAGE (DELUX)**

- Used in epicondylitis treatment
- Decrease pressure on tendon by compression

**DEQUARVEIN SPLINT**

**Features and Functions**

- Removable metal splints in thumb area for improved stability
- Supports the wrist and thumb, leaving the palm free
- Ideal for sprains of thumb, ligament support, and minor fractures of the thumb

**HAND WRIST SPLINT**

**Indications**

- Carpal Tunnel Syndrome
- Wrist instability due to triangular fibrocartilage complex TFCC injury
- Radial nerve paralysis
- Rheumatoid arthritis

**Functions**

- Immobilization of the wrist
- Firm support for wrist

**Features**

- Comfortable, breathable, skin-friendly flannel-lined elastic cotton fabrics
- Anatomically-contoured aluminium palmar splint

# FABRIC ORTHOPEDICS

Wicromed.

## HAND WRIST SPLINT – AIRTEX

### Indications

- In the case of carpal tunnel and along dequervain
- Dequervain tenosynovitis
- Red – Blue - Black

### Features and Functions

- Enables immobilization of the wrist in pain
- Inhibits movement of the wrist with the palmar aluminium
- Made of airtex fabric.
- Extremely breathable
- Lightweight, durable soft fabric
- Anatomically contoured aluminum supporter for wrist
- Available in right and left hand

CE ISO 13485 | ISO 9001

Wicromed.

## HAND WRIST SPLINT WITH THUMB SUPPORT AIRTEX

### Indications

- Carpal Tunnel Syndrome
- De Quervain's disease
- First metacarpophalangeal or carpometacarpal joint injury
- DeQuervain's tenosynovitis & Gamekeeper's thumb
- Ligamentous laxity of the thumb skier's thumb
- Radial nerve paralysis
- Rheumatoid arthritis or degenerative arthritis at the thumb
- Red – Blue - Black

### Functions

- Immobilization of the wrist and thumb

### Features

- Breathable material with terry-lined interior for wearing comfort
- Made of elastic cotton fabric
- Anatomically-contoured aluminium palmar splint
- Rigid thumb stay for custom fit
- V-notch at fifth MP for palmar spread
- Available in right and left hand

CE ISO 13485 | ISO 9001

Wicromed.

## HAND WRIST SPLINT – NEOPREN

### Indications

- Ideal for sprains and strains and other wrist injuries.

### Features and Functions

- Wrist immobilization
- Decrease anti-inflammatory medications
- Decrease pain symptoms
- Improve wrist joint function
- Easy application
- Inhibits movement of the wrist by Palmar aluminium support.

CE ISO 13485 | ISO 9001

Wicromed.

## HAND WRIST SPLINT WITH THUMB SUPPORT

### Indications

- Carpal Tunnel Syndrome
- First metacarpophalangeal or carpometacarpal joint injury
- DeQuervain's tenosynovitis & Gamekeeper's thumb
- Ligamentous laxity of the thumb skier's thumb
- Radial nerve paralysis
- Rheumatoid arthritis or degenerative arthritis at the thumb

### Functions

- Immobilization of the wrist and thumb

### Features

- Breathable material with terry-lined interior for wearing comfort
- Anatomically-contoured aluminium palmar splint
- Rigid thumb stay for custom fit
- V-notch at fifth MP for palmar spread
- Available in right and left hand

CE ISO 13485 | ISO 9001

**HAND WRIST SPLINT WITH THUMB SUPPORT - NEOPREN**

**Indications**

- Carpal Tunnel Syndrome
- First metacarpophalangeal or carpometacarpal joint injury
- DeQuervain's tenosynovitis & Gamekeeper's thumb
- Ligamentous laxity of the thumb skier's thumb
- Radial nerve paralysis
- Rheumatoid arthritis or degenerative arthritis at the thumb

**Functions**

- Immobilization of the wrist and thumb

**Features**

- Breathable material with terry-lined interior for wearing comfort
- Anatomically-contoured aluminium palmar splint
- Rigid thumb stay for custom fit
- V-notch at fifth MP for palmar spread
- Available in right and left hand

**WOOLEN CORSET**

**Indications**

- Rheumatism, sciatica, lumbago

**Features and Functions**

- Made of elastic wool fabrics
- Made of wool fabrics 30 cm high
- To maintain warm both the waist and abdominal muscles

**ABDOMINAL SUPPORT CORSET ( HOOKED)**

**Indications**

- After birth
- Mild low back pain
- Splanchnoptosis and exomphalos

**Features and Functions**

- Provides strong comfortable support to help to relieve back pain during pregnancy
- Specially-shaped to provide full support in the sacral region and over the symphysispubis

**CHEST CORSET (HOOKED)**

**Indications**

- To support sternum post-coronel surgery
- Post-Costa fracture

**Features and Functions**

- Made of air permeable, antiperspirant fabrics with nylon thread
- Additionally supported by towel laminated soft sponge fabrics on sternal site

# FABRIC ORTHOPEDICS

Wicromed

**CORSET LUMBOSTAD (HOOKED)**

**Indications**

- Lumbago
- Spinal deformations
- Sciatica pain
- Lumbal vertebral problems
- Acute or chronic lumbago
- Post-up immobilization purposed
- Thermo-therapy purposed

**Features and Functions**

- Made of antiallergenic, ventilated, antiperspirant, elastic cotton material; made of 26 cm in width
- Lumbal site is supported by plastic and steel underwires

CE ISO 13485 | ISO 9001

Wicromed

**CORSET LUMBO-SACRAL (HOOKED)**

**Indications**

- Lumbago
- Spinal deformations
- Vertebral and ilio-sacral articulation problems
- Acute or chronic lumbago
- Post-up immobilization purposed

**Features and Functions**

- Made of antiallergenic, ventilated, antiperspirant, elastic cotton material; made of 32 cm in width,
- Lumbal and sacral sites are supported by plastic and steel underwires,
- Supported by additional belts for more compliance with waist,
- Plastic underwire 2 at front, 4 at back
- Optionally; 2 steel underwires may be added to underwires at back, which ensures fully stabile structure

CE ISO 13485 | ISO 9001

Wicromed

**CORSET LUMBO-SACRAL**

**Indications**

- Lumbago
- Spinal deformations
- Vertebral and ilio-sacral articulation problems
- Acute or chronic lumbago
- Post-up immobilization purposed

**Features and Functions**

- Made of antiallergenic, ventilated, antiperspirant, elastic cotton material; made of 32 cm in width,
- Lumbal and sacral sites are supported by plastic and steel underwires,
- Supported by additional belts for more compliance with waist,
- Plastic underwire 2 at front, 4 at back
- Optionally; 2 steel underwires may be added to underwires at back, which ensures fully stabile structure

CE ISO 13485 | ISO 9001

Wicromed

**CORSET POSTUREX (HOOKED)**

**Indications**

- Poor posture
- Weak scapula muscles
- Round shoulder

**Features and Functions**

- Triangle configuration correctly distributes pressure to tip of shoulder
- Additional stays help reinforce back alignment and proper posture
- Crisscrossing straps provide more support and make the support easy to adjust
- Corrects poor posture and prevents slouching

CE ISO 13485 | ISO 9001

**CORSET DORSOLOMBER (HOOKED)**

**Indications**

- Lumbago
- Osteoporosis
- Light weight
- Post-up immobilization purposed

**Features and Functions**

- Made of antiallergenic, ventilated, antiperspirant fabrics with nylon thread
- Supported by thermoplastic and steel underwires on thoroca, lumbal and sacral sites
- Supported by additional belts for more compliance with waist and breast
- Plastic underwires 2 at front, 4 at back
- Optionally; 2 steel underwires may be added to underwires at back, which ensures fully stabile structure

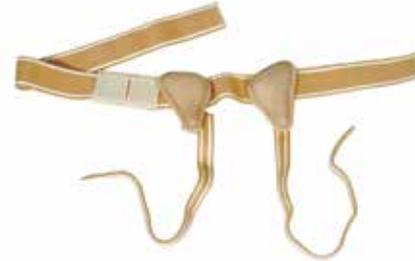

**HERNIA TRUSS – SINGLE SIDED**

**Indications**

- Mild lumbago
- Sciatica pain
- Bilateral inguinal hernia
- Mild scoliosis

**Features and Functions**

- Provides compression around the affected area with targeted compression on the hernia, reducing the inguinal hernia
- Hook and loop closure allows to controlled fits
- Adjustable thigh strap are made of soft elastic

**HERNIA TRUSS – DOUBLE SIDED**

**Indications**

- Bilateral inguinal hernia
- Mild lumbago
- Sciatica pain
- Mild scoliosis

**Features and Functions**

- Provides compression around the affected area with targeted compression on the hernia, reducing the inguinal hernia
- Infinite adjustment for maximum comfort minimizes pressure over back musculature
- A simple hook and loop closure allows you to control the fit and compression of the truss
- Elastic band trusses should be put around the waist with the pad places in position and tightened to fit

**CALF SUPPORT (UP)**

**Indications**

- Muscle weakness
- Muscle fatigue

**Features and Functions**

- Helps relieve pain from an injured or weak thigh
- Provides heat retention
- Effective support for strained groin muscles and torn hamstring

# FABRIC ORTHOPEDICS

Wicromed

NEW

## CALF SUPPORT (UP)

### Indications

- Muscle weakness
- Muscle fatigue or strain

### Features and Functions

- Helps relieve pain from an injured or weak thigh
- Provides heat retention
- Effective support for strained groin muscles and torn hamstring

CE ISO 13485 | ISO 9001

Wicromed

## CALF SUPPORT (DOWN)

### Indications

- Muscle weakness
- Compartment syndrome
- Thermal therapy purposes

### Features and Functions

- Helps relieve pain from an injured or weak shin
- Designed to conform naturally to the contours of the shin
- Effective support for strained muscles and torn hamstrings

CE ISO 13485 | ISO 9001

Wicromed

NEW

## CALF SUPPORT (DOWN)

### Indications

- Tibial bones protection case
- Muscle weakness
- Compartment syndrome
- Thermal therapy purposes

### Features and Functions

- Provide warm and compression in muscular lesion
- Helps relieve pain from an injured or weak shin

CE ISO 13485 | ISO 9001

Wicromed

## WOOLEN KNEE SUPPORT

### Indications

- Thermal-therapy purpose
- Knee compression
- Arthritis
- Mild strain/spain

### Features and Functions

- Made of wool fabrics of 30 cm high
- For knee pains, rheumatism and sciatic, and where knees must be maintained warm
- Unnoticeable under clothes
- Does not irritate skin and help prevent allergies

CE ISO 13485 | ISO 9001

Wicromed

### KNEE SUPPORT - NEOPRENE

#### Indications

- Knee trauma
- Osteoarthritis
- Articular effusion
- Local inflammation
- Thermo-therapy purpose

#### Features and Functions

- Helps relieve weak or sore knees
- Side air vents for fit and comfort.
- Comfortable neoprene blend helps knee retain warmth.
- Adjustable straps for proper support, comfort and fit.
- Easy to apply

CE ISO 13485 | ISO 9001

Wicromed

### CLOSED PATELLA KNEE SUPPORT – NEOPREN

#### Indications

- Articular effusion & swelling
- Chronic inflammation after operation or trauma
- Patellofemoral pain syndrome
- Bilateral spiral steel stays prevents valgus or varus deviation
- Patella alta, patella subluxation, patella dislocation
- Chondromalacia
- Muscle strain around knee joint

#### Functions

- Effectively stabilizes the kneecap to eliminate anterior knee pain
- Closed cell neoprene with compressive and proprioceptive effect
- Increase blood circulation through warm effect

#### Features

- 1/8" thick neoprene with nylon lining
- Open patellar design
- Popliteal cut-out design

CE ISO 13485 | ISO 9001

Wicromed

### PATELLA TENDON STRAP

#### Indications

- Patellar tendinopathy
- Osgood-Schlatter disease
- Jumper's knee

#### Features and Functions

- Reinforces and protects the patellar tendon
- 1/8" thick neoprene with nylon lining
- Simple fitting & time-saving application via hook and loop closure

CE ISO 13485 | ISO 9001

Wicromed

### PATELLA KNEE SUPPORT

#### Indications

- Osteoarthritis
- Articular effusion & Swelling
- Femoral pain

#### Features and Functions

- Stabilize patella by special ped support
- Effectively stabilizes the kneecap to eliminate anterior knee pain
- Increase blood circulation through warm effect
- Simple fitting & time-saving application via hook and loop closure

CE ISO 13485 | ISO 9001

# FABRIC ORTHOPEDICS

Wicromed

## PATELLA KNEE SUPPORT

### Indications

- Articular effusion & swelling
- Chronic inflammation after operation or trauma
- Patellofemoral pain syndrome
- Patella alta, patella subluxation, patella dislocation
- Chondromalacia
- Muscle strain around knee joint

### Functions

- Effectively stabilizes the kneecap to eliminate anterior knee pain
- Closed cell neoprene with compressive and proprioceptive effect
- Increase blood circulation through warm effect

### Features

- 1/8" thick neoprene with nylon lining
- Open patellar design
- Popliteal cut-out design

CE ISO 13485 | ISO 9001

Wicromed

## PATELLA AND LIGAMENT KNEE SUPPORT (LONG – SHORT)

### Indications

- Mild instabilities of knee joint
- Articular effusion & swelling
- Chronic inflammation after operation or trauma
- Patellofemoral pain syndrome
- Patella alta, patella subluxation, patella dislocation
- Chondromalacia
- Muscle strain around knee joint

### Functions

- Bilateral spiral steel stays prevents valgus or varus deviation.
- Effectively stabilizes the kneecap to eliminate anterior knee pain
- Closed cell neoprene with compressive and proprioceptive effect
- Increase blood circulation through warm effect

### Features

- 1/8" thick neoprene with nylon lining
- Crossing straps control patella movement.
- Open patellar design with soft-cushioned felt
- Upper and lower coronal fasteners offer further fit
- Pull-on version

CE ISO 13485 | ISO 9001

Wicromed

## PATELLA AND LIGAMENT KNEE SUPPORT

### Indications:

- Arthritis
- Mild instabilities of knee joint
- Articular effusion & swelling
- Chronic inflammation after operation or trauma
- Patellofemoral pain syndrome
- Patella alta, patella subluxation, patella dislocation
- Chondromalacia
- Muscle strain around knee joint

### Features and Functions

- Neoprene circle pad around the patella provides padded protection and stabilization to prevent patella displacement
- Two medial and lateral stays provide additional support and stability for the knee
- Helps relieve pain from tendinitis and arthritis
- Increase blood circulation through warm effect

CE ISO 13485 | ISO 9001

Wicromed

## HINGED PATELLA KNEE SUPPORT

### Indications

- Mild to moderate instabilities of knee joint
- Mild to moderate strain of the collateral ligaments
- Meniscus injuries
- Chronic inflammation after operation or trauma

### Functions

- Collateral stabilization of knee joint prevents valgus or varus deviation.
- Prevent hyperextension
- Closed cell neoprene with compressive and proprioceptive effect
- Increase blood circulation through warm effect

### Features

- Open patellar design
- Hinges hidden in pockets offer superior stability
- Soft-cushioned felt forms the contour of knee and offers additional comfort.
- Upper and lower coronal fasteners offer further fit.
- Pull-on version

CE ISO 13485 | ISO 9001

**HINGED PATELLA KNEE SUPPORT (OPEN FRONT)**

**Indications**

- Weak knee
- Moderate arthritis
- Chronic inflammation after operation or trauma
- Patellofemoral pain syndrome
- Patella alta, patella subluxation, patella dislocation
- Knee swelling

**Features and Functions**

- The front opening design and easy open closure straps make the brace suitable for the arthritic or elderly patient who may suffer from limited dexterity
- Elastic brace with motion hinges provides medial and lateral support for the unstable knee
- May be used for stabilization and support of the knee following strains, injury or surgery
- Open patellar design
- Popliteal cut-out design

**HINGED KNEE BRACE**

**Indications**

- Mild to moderate instabilities of knee joint
- Mild to moderate strain of the collateral ligaments
- Meniscus injuries
- Chronic inflammation after operation or trauma

**Functions**

- Collateral stabilization of knee joint prevents valgus or varus deviation.
- Prevent hyperextension
- Closed cell neoprene with compressive and proprioceptive effect
- Increase blood circulation through warm effect

**Features**

- 3/16" thick neoprene with nylon lining
- Open patellar design
- Two hook and loop straps insure comfortable fit
- Soft-cushioned felt forms the contour of knee and offers additional comfort.
- Upper and lower coronal fasteners offer further fit.
- Pull-on version
- Provides firm support for the maintenance of joint structures with gentle compression over the kneecap

**ANKLE SUPPORT WITH STRAP**

**Indications**

- Mild to moderate ankle distortions
- Treatment of acute ankle sprain (alternative to taping)
- Chronic ankle instability
- Articular effusion & swelling
- Prophylactic and therapeutic use in sport activities

**Functions**

- Prevent over inversion or plantarflexion
- Closed cell neoprene increases blood circulation through warm effect
- Compressive and proprioceptive effect

**Features**

- Extra elastic figure 8 strap provides additional compression and support

**ANKLE SUPPORT**

**Indications**

- Mild torsion of ankle joint
- Articular swelling and chronic ankle instability

**Functions**

- Fits well under clothing
- Helps relieve pain due to strains or stiffness
- Compressive and proprioceptive effect

**Features**

- Can also for prophylactic use in low intensity exercise or general workout

# FABRIC ORTHOPEDICS

Wicromed

## ANKLE SUPPORT – EXTRA

### Indications

- Thendomyopathies
- Arthritis-arthritis
- Situations where stabilization is necessary
- Thermal-therapy purposed.

### Functions

- Designed to protect ankle Malleolus
- 2 asymmetric designs formed in anatomical structure
- Compresses the site without avoiding motion
- Structure which ensures rapid absorption of blood circulation and edema, discharge and hematoma

CE ISO 13485 | ISO 9001

Wicromed

NEW

## ANKLE SUPPORT WITH SILICONE PAD

### Indications

- Mild ankle distortion
- Chronic ankle instability
- Articular effusion & swelling
- Prophylactic and therapeutic use in sport activities

### Functions

- The silicone insert exert a massage effect
- Reduces swelling from minor injuries
- Flexible compression provides ankle support and improves proprioception

### Features

- Silicone support pad
- Made of seamless, four-way stretch elastic material for comfortable fit
- Breathable material with moisture absorbed

CE ISO 13485 | ISO 9001

Wicromed

NEW

## ANKLE SUPPORT WITH LIGAMENT

- Provides compression for weak or overstressed ankles
- Thermal-therapy purposed.

CE ISO 13485 | ISO 9001

Wicromed

## AIRCRAFT ANKLE SUPPORT

### Indications

- Mild to moderate ankle sprain
- Chronic ankle instability
- Prophylactic and therapeutic use in sport activities

### Functions

- Rigid contoured outer shells control inversion or eversion while allowing for normal dorsi-flexion
- Inflatable air bladders allow user to adjust compression pressure to reduce swelling

### Features

- Air bladders for additional support and compression
- Anatomically-contoured plastic shell
- Simple to apply and adjust by two circumferential straps
- Easy adjustable heel strap
- Designed specifically for right or left

CE ISO 13485 | ISO 9001

### HALLUX VALGUS BANDAGE

**Indications**

- Hallux valgus

Features and functions

- Aluminum underwire on lateral site of thumb
- Standard (Right-Left)

### STRESS BALL

- Made of 100% silicone, different color and hardness
- Rehabilitation oval silicone ball is used for exercise.
- It has got 3 grade red (hard), blue (medium), green (soft)

Wicromed.

## UPLIFT COMMODE ASSIST

- Adaptable with all type of toilet
- Cover or without cover options are available
- Uplift the seat height for 11 cm
- Special clips prevent slips

# FOOT HEALTH

Wicromed®

## SILICONE ORTHOPEDIC INSOLE

- Made of visco elastic silicone
- Hypo-Allergenic
- Relaxing and soothing
- Ensures balanced pressure distribution in foot sole by supporting the same
- anatomically
- Blue regions are softer compared to others
- Extends until metatarsus
- % 100 silicone
- Elastic structure

CE ISO 13485 | ISO 9001

Wicromed®

## SILICONE INSOLE (HIGH ARC SUPPORTED)

- Made of 100% silicone
  - Absorbs ground reaction force
  - Orthopedic supports ensure balanced load distribution
- Indications:
- Pes planus
  - Pes caus
  - Plantar fasciit
  - Metatarsal support

CE ISO 13485 | ISO 9001

Wicromed®

## CORK INSOLES

For lifting the medial longitudinal arch; uplifting of the back part of the foot, adduction of the forefoot. Custom made on cast by molding high quality leather and cork.

Indications:

- Straight sole
- Pes planus
- Pes cavus
- Metatarsalji

**Size Range**

33-34

CE ISO 13485 | ISO 9001

Wicromed®

### STEEL INSOLE

- Supported by stainless steel bridge ; features apparent supports
- Maintains extended term elasticity and Dynamics thereof
- Made of naturel leather
- One size smaller than the foot must be used

#### Indications:

- Pes planus
- Pes cavus
- Metatarsalji
- Elasticity

#### Size Range

34-36

CE ISO 13485 | ISO 9001

Wicromed®

### SILICONE EPIN HEEL

- Made of visco elastic silicone
- Hypo-Allergenic
- Blue regions are softer compared to others
- Epin calcanei
- % 100 silicone

CE ISO 13485 | ISO 9001

Wicromed®

### SILICONE HEEL – FABRIC COVERED (ADHERENT)

- Made of 100% silicone
- Helps reduce and absorb the shock with each step.
- Ideal for healing pains
- For epin calcai

CE ISO 13485 | ISO 9001

Wicromed®

### SILICONE METATARSAL PAD

Made of 100% silicone

#### Indications

- Metatars head sensitivity - Metatarsalgia
- Fat Pad Atrophy
- Lower-Metatars callus
- Ideal for conditions such as Fat Pad Atrophy
- Washable and reusable - Easily fits into all shoes.

CE ISO 13485 | ISO 9001

# FOOT HEALTH

**Wicromed**

## SILICONE BUNION CUSHION

- Made of 100% silicone
- Helps with bunion discomfort, pressure and friction
- Helps protect/cushion protuberance
- Premium Quality Silicone for comfort and durability
- Ergonomically designed to fit the anatomy of the wearer's foot

CE ISO 13485 | ISO 9001

**Wicromed**

## SILICONE TOE SPREADER

- Made of visco-elastic silicone
- Designed slimmer in the middle for greater comfort, broader top and bottom to maintain spread
- Keeps toes apart and reduces friction
- Reusable.

### Indications

- Toe deformities
- Reduces friction & irritation.
- Provides gentle, constant pressure that promotes proper joint alignment.
- Aligns the big toe to help relieve bunions

CE ISO 13485 | ISO 9001

**Wicromed**

## MEDICAL CLOGS

- Perforated full anatomic Clogs
- Hygienic and does not produce bacteria
- Available for blue and White colour.

## VARICOSE SOCKS ANTIEMBOLIC UPPER / LOWER KNEE

- Prevention of Pre/post-operation thrombosis and embolism
- Situations where general immobility, bedridden
- Pregnancy, birth and post-pregnancy
- Phlebitis, arteriosclerosis, ischemic vascular diseases, leg edema, pulmonary, edema.
- General immobility or bedridden situations post-operation; venous insufficiency
- Phoenix embolism stockings accelerate venous return flow rate and avoid blood clot formation which may cause pulmonary embolism or chronic venous deficiency
- Made of nylon and elastin material
- Contains no latex

CE ISO 13485 | ISO 9001

MEDI  
PHOENIX

**VARICOSE SOCKS (SOOTHING)  
18-22 mmHg**

- Medi –Phonex soothing stockings are very thin, transparent, pain knit, soft and comfortable  
Assists in graded pressure blood circulation and restricts problems caused by vessel failure
- Fatigueless and pain on legs, early venous deficiencies, or varicose stages where no edema is present yet, spider vans, pregnancy varicose vans, sclerosis of varicose vans
- CCLI 18/22 mmhg is the pressure class equivalent up to 24/28 kPa
- Medi –Phonex low pressure varicose stockings assist in avoiding such discomforts

**Available in ;**

- Knee High Varicose Stocking (Closed Toe)
- Thigh High Varicose Stocking (Closed Toe)
- Pantyhose Varicose Stocking (Closed Toe)
- Pregnancy Pantyhose Varicose Stocking (Closed Toe)

CE ISO 13485 | ISO 9001

MEDI  
PHOENIX

**VARICOSE SOCKS (SOOTHING)  
20-30 mmHg**

- Recommended for treatment of vascular diseases, severe symptoms, significant varicose vans or intermediate edema, upon elution of minor ulcers, post-operation for sclerosis and varicose vans, deep vein thrombosis and deep van deficiencies.
- CCLII 20/30 mmHg is the pressure class equivalent up to 32/43 kPa.
- For diabetics with bunion and malnutrition of skin, "open Toe" option is available.

**Available in;**

- Knee High Varicose Stocking (Closed & Open Toe)
- Thigh High Varicose Stocking (Closed & Open Toe)
- Pantyhose Varicose Stocking (Closed & Open Toe)

CE ISO 13485 | ISO 9001

## LUMBAR CUSHION

- Durable fabric covering and polyurethane foam filled
- Cushion helps the lumbar and sacral region of the spinal column
- A great carry along for any seat at the office, in the car, or a airplane ride
- Ensures correct position sitting thanks to anatomical form thereof
- Readily removable and washable cover
- Considerably diminishes waist- and back pains
- Directly supports waist and vertebra
- Fits every style of seat to the elastic band at back
- Hygienic
- Manufactured free of CFC gas which is hazardous for human health
- Contains no carcinogen
- Types; Visco and Polyurethane

CE ISO 13485 | ISO 9001

## DONUT CUSHION

- Elevate the back of the rear for maximum weight relief
- Cushion made of polyurethane foam which is continuously elastic and may maintain form thereof
- Reduces hemorrhoids, decubitus scars, hip and bone pain, and coccyx degeneration pain
- Reduce pressure points in the legs, upper thighs, and rear.
- Hygienic
- Manufactured free of CFC gas which is hazardous for human health
- Contains no carcinogen
- Offer balance so there's no tilting when rotating or reaching. (This type of tilting can cause additional pain.)
- Improve posture, which can increase blood flow and circulation to encourage natural body healing.
- Allow for easy travel for donut comfort when driving, working, sitting at home, and everywhere in between.

FLO EOLO

## COMPRESSOR NEBULIZER / EOLO FLO

EOLO is a piston compressor nebulizer for aerosoltherapy. Designed for home-care with convenient handle and a large compartment for easy transport of unit, accessories and medications.

- **Compressor:** Oilless and maintenance-free piston pump
- **Power Feeding:** 230 V-50 Hz
- **Power consumption:** 170 VA
- **Max Pressure:** 2,5 bar 36 psi 250 Kpa
- **Operating Pressure:** 1,1 bar
- **Max Air Flow:** 14 L/min
- **Operating Air Flow:** 5 L/min
- **Neb-rate with 4 ml solution:** 0,40 ml/min
- **Mass Median Aerodynamic Diameter:** 2,44 µm (MMAD)
- **Respirable Fraction (< 5µm):** > 80 %
- **Duty Cycle:** Continuo
- **Noise Level (EN 13544-1 Standard):** 55 dB
- **Weight:** 1,65 Kg
- **Size (Main Unit):** 14x12x22 cm

### Included accessories:

- HI-FLO Jet Nebulizer
- Adult Masks with elastic strings
- Child Masks with elastic strings
- Mouthpiece
- Nosepiece (non invasive)
- Air Tube
- Air Filter
- Carrying Bag

CE ISO 13485 | ISO 9001  
0123

Rina Vap

## RINA VAP COMPRESSOR NEBULIZER

RINA VAP is a piston compressor nebulizer for aerosoltherapy. Indicated for home-care and intensive use, its design includes a convenient handle for easy transport of unit and a large compartment for storage of accessories and medications.

- **Power:** 230 V AC /50HZ or 120V AC /60HZ
- **Current:** 0.70 or 1.5A
- **Max capacity of medicine cup:** 6ml
- **Particle size:** 0.5 to 10µm
- **Average Nebulizer rate:** ≥0.33 ml/min
- **MMAD:** 3.0 ~ 6.0µm
- **Noise:** ≤ 60dBA
- **Unit size:** 270 x 200 x 110 MM
- **Unit weight:** 2.0 KG
- Suggested applications: hospital , clinical, nursing home, homecare
- Accessory;
- 1.5M air tube
- Mouthpiece
- Nosepiece
- Adult mask
- Child mask
- Air filter (5 pcs)
- Medicine cup

CE ISO 13485 | ISO 9001  
0120

## AEROSOL CHAMBER

- Made of liquid silicone.
- Non-allergenic.
- Fully face fitting.
- Accelerates lung function progress.
- Avoids medicine loss of time delay during inhalation.

### OXYGEN CONCENTRATOR 7F-5

- **Oxygen density:**  $\geq 90\%$
- **Oxygen flux:** 1-5L/min
- **Output pressure:** 0.04-0.06Mpa
- Overrunning pressure alarm
- **Nebulization rate:** 0.2 ml/ dk
- **Noise:**  $\leq 54\text{dB(A)}$
- **Power supply:** AC220 $\pm$  22V, 50 $\pm$  1Hz
- **Input power:**  $\leq 500\text{VA}$
- **Dimensions:** 380x310x600
- **Weight:** 25 kg

CE ISO 13485 | ISO 9001

MicroPore

## NON-WOVEN HYPOALLERGENIC PLASTER

- Transmits air and sweat but water due to its micro pores. Its effects to the skin, even to very sensitive skin are very little due to its special adhesive. Sticks easily on hairy areas, does not cause pain when pulling out.
- No need to use scissors because of its special perforated area.
- May be torn off properly in length and breadth.
- Not visible through X-ray photograph.
- **Made in Turkey**

CE ISO 13485 | ISO 9001

MicroTrans

## POLYETHYLENE HYPOALLERGENIC PLASTER

- Transmits air and sweat due to its micro pores, water resists.
- Its effects to the skin, even to very sensitive skin are very little due to its special adhesive.
- Can be torn off from length and breadth easily.
- Remains adhesive for a long period.
- Application area may be seen due to its transparent surface.
- Not visible through X-ray photograph.
- **Made in Turkey**

CE ISO 13485 | ISO 9001

MicroFix

## HYPOALLERGENIC ELASTIC PLASTER

- Well-adjusting to the body due to its elastic feature.
- Convenience on areas with edema and on moving areas (orthopedic, abdominal, thorax obstetrics) on all kinds of surgical attempt areas, on shoulders, elbows, armpits, process areas, in post-operative usage.
- Can be pulled out cleanly and painlessly.
- **Made in Turkey**

CE ISO 13485 | ISO 9001

**SILK PLASTER**

- Acrylic on Zinc oxide, rubber based, adhesive, medical silken plaster made of acetate silk.
- May be torn off properly in length and breadth. No need to use scissors.
- Used for fixing purposes in all kinds of surgical application.
- Remains adhesive for a long period.
- Not visible through X-ray photograph.
- **Made in Turkey**

**Available size**

- 5m x 1.25 cm
- 5m x 2.5 cm
- 5m x 5 cm
- 5m x 7.5 cm
- 5m x 10cm

**ADHESIVE EYE PAD (ELIPTIC) (FOR CHILDREN)**

- Hypoallergenic –adhesiveness suitable for skin-sensitive children
- Light-proof black pad provides the dark environment needed for eye
- Designed for children; safety and comfortable use after eye injuries and postoperative eye cares
- Steril until the pack is opened
- Can be used on both two eyes and behind glasses
- Single use only
- **Made in Turkey**

**STERILE URINE BAG**

- 2000 ml. volume
- Made of medical PVC
- Hook hole
- Tube made of PVC material of 90 cm
- Appropriate hardness which avoids bending
- W/wo tap
- Disposable and sterile

**PEDIATRIC STERILE URINE BAG**

- To collect urine sample from infants
- 10 ml level indicators on bag
- Made of medical PVC
- Independent and sterile
- Girl and boy option

## BOUFFANT CAP

- Caps comply with NFPA standards and are latex-free.
- Double-stitched elastic band keeps caps flat and comfortable on the forehead.
- Economy cap, lint free.
- Made of spunbond polypropylene.
- Antiallergenic
- Colour: White and Green
- Packaging:  
Box: 100 units  
Package: 250 boxes
- **Made in Turkey**

Wicromed

## ELASTIC MASK - 2 LAYERS

- Hygienic and anti-allergenic
- Air permeable, liquid-tight
- Ultrasonic suture
- Head and beard covers provide complete coverage for worry-free performance during surgery
- Available in a spunbound polypropylene or multi-layer material
- Disposable
- Single use only
- Packaging: 150 units
- **Made in Turkey**

### ELASTIC MASK - 3 LAYERS

- Hygienic and anti-allergenic
- Air permeable ,liquid -tight
- Ultrasonic suture
- Head and beard covers provide complete coverage for worry-free performance during surgery
- Available in a spunbound polypropylene or multi-layer material
- Disposable
- Single use only
- Packaing: 50 units
- **Made in Turkey**

CE ISO 13485 | ISO 9001

### NASAL OXYGEN CANNULA ADULT / PEDIATRIC

- Made of non-toxic ,non-irritating PVC
- 2 m length.
- Soft and clear
- Air passage safety
- Soft cannula resistant to bending
- Clamp for narrowing and expansion
- Single use only
- **Made in Turkey**

CE ISO 13485 | ISO 9001

### OXYGEN MASK – ADULT / PEDIATRIC

- Made of medical PVC material
- 2 m.hose
- Adjustable nose clip assures comfortable fit
- Standard connection connector
- Elatic rubber (ended)
- Air passage safety
- Clear, soft vinyl for patient comfot and visual assessment
- **Made in Turkey**

CE ISO 13485 | ISO 9001

### OXYGEN MASK (with CHAMBER) ADULT / PEDIATRIC

- Made of medical PVC material
- 8 ml. Medicine chamber
- 2 m.hose
- Adjustable nose clip assures comfortable fit
- Standard connection connector
- Elatic rubber (ended)
- Air passage safety
- Clear, soft vinyl for patient comfot and visual assessment

**FOLEY CATHETER**

- Design in compliance with face anatomy
- Made of medical PVC material
- 2 m. Hose
- Standard connection connector
- 8 ml. medicine chamber
- Air passage safety
- Elastic rubber (ended)
- Metal piece to take form of nose
- 2 and 3 ways
- **Size:** 16-18-20-22-24 fr

**FOLEY CATHETER SILICONE**

- Made of Non-toxic, non-irritating silicone material
- X-ray line
- Two lateral aperture on distal end
- Two-ways
- Vacuum control
- Disposable and individually packaged
- **Size:** 6FR – 24FR

Wicromed

**EXTERNAL MALE CONDOM CATHETER**

- Made of natural latex
- Proximal end designed to ensure easy connection with urine bag
- Self-adhering band
- Disposable and individually packaged

Wicromed

**ULTRASOUND – ECG GEL**

- Water-soluble, easily cleaned
- Hypoallergenic
- Free from fatty substance, formaldehyde and salt
- Non-toxic and odorless
- May be used in Ultrasound and ECG
- PH 7
- Manufacture under vacuum
- Free from air bubble
- Transparent in blue color
- 1000 ml
- **Made in Turkey**

### ORAL CARE SET

- Single packed, EO Sterile
- 100 ml. solution
- 20 Medical Sponge swaps easily cleaned
- Moisturizing Gel and sealed container
- Mouth Antiseptic
- Hydrogen peroxide %1, 5

### HYDROPHILIC CATHETER WITH WATER SOCKET

- Maintains slickness for extended periods once get into contact with water
- Avoids trauma by virtue of rounded end
- Unrecognizable precise drainage holes ensures easy discharge of bladder
- Non-traumatic non-infection application thanks to non-toxic gel on surface
- Low-friction catheter minimizes risk of infection, while maximizing comfort
- Sterile
